THREE WAYS INJECTORS DELIVER THE POWER TO EARN MORE:

1

ULTIMATE ENGINE PROTECTION

Because all Cat injectors are made to Cat engine specifications, they deliver top performance and longer life than competitive injectors. With their optimized fuel efficiency, they also ensure compliant emissions. Both new and Reman injector warranties cover contingent damage should the injector fail.*

2

UP TO 3X LIFE EXPECTANCY

Cat injectors are hard-coated components that deliver up to 3X the life expectancy of noncoated parts. Coating protects injectors from excessive wear and dirty fuel erosion, the leading causes of injector failures.

3

PROVEN PERFORMANCE

You can count on the proven quality of Cat injectors. Testing and competitive analysis confirm that Cat injectors outperform 85% of comparable competitive injectors. Many competitors don't match Cat engine specs, which means you lose performance and wear life—and that's less money in your pocket.

Visit parts.cat.com to shop and buy Cat injectors.

*Contingent damage is covered on injectors that are installed by certified Cat technicians

EASY TO PURCHASE

Ordering injectors on Parts.Cat.Com is fast, free, and allows you to shop from any device. Save frequent orders, view order history, upload parts lists, set shopping preferences, and gain access to more than 1.4 million genuine Cat parts.

Cat Reman injectors help you control costs and work with confidence.

CHOOSING CAT FILTERS AND FLUIDS ADDS EVEN MORE VALUE

Cat filters and fluids are designed and manufactured to reduce component wear and protect your bottom line. Lab results revealed that using Cat filters:

- Lowered filter cost per hour by up to 80%
- Resulted in 3X fewer fuel injector leaks
- Led to up to 45% longer fuel injector life

A CUSTOMER FIELD STUDY CONFIRMED
41% LONGER INJECTOR LIFE
USING CAT FILTERS.

It costs a lot more to replace an injector than to use the right filters!
